POSITION DESCRIPTION

BACKGROUND

USAID's Office of Transition Initiatives (OTI) is seeking highly motivated, highly qualified individuals who want the opportunity to help support rapid international transition programs for priority conflict-prone countries. Created in 1994 as a distinct operating unit within USAID, OTI helps local partners advance peace and democracy in politically-transitioning countries. In support of U.S. foreign policy, OTI seizes emerging windows of opportunity in the political landscape to promote stability, peace, and democracy by catalyzing local initiatives through adaptive and agile programming.

Countries experiencing a significant political transition in the midst of a disaster or emerging from civil conflict have unique needs that cannot be fully addressed by traditional disaster relief. Timely and effective assistance to promote and consolidate peaceful, democratic advances can make the difference between a successful or a failed transition. OTI assists in securing peace by aiding indigenous, mostly non-governmental, civil society and media organizations. OTI uses such mechanisms as support for re-integration of ex-combatants into civilian society; development of initiatives to promote national reconciliation; identification of quick-impact community self-help projects to meet urgent economic needs; and aid to independent media outlets and community-based organizations to help promote informed debate and broaden public participation.

To respond quickly and effectively and meet its program objectives and mandate OTI retains a group of high level professionals and experts under U.S. Personal Services Contracts (USPSCs). These knowledgeable and skilled professionals make up the vast majority of the OTI work force and are at its forefront implementing and achieving the office's programmatic goals and objectives. There are several benefits that USPSCs may participate in, such as partial reimbursement for health and life insurance costs, as well as full coverage of workers' compensation, among other benefits. For more complete information on USPSC benefits, please see Section VI of this solicitation.

INTRODUCTION

OTI's success now and in the future depends in large part on its ability to achieve an overarching organizational goal: the effective transfer and ongoing analysis of knowledge and experience – comprised of values, management processes, lessons learned, best practices, standards, and innovations – in real time, with a variety of stakeholders. These stakeholders include: OTI staff in the field and headquarters; OTI's implementing partners around the world; USAID Missions overseas; other USAID offices and bureaus in Washington; other U.S. Government agencies and branches; other donors; other transition, stabilization and reconstruction practitioners; host government and/or other local counterparts; and the U.S. public. All of the above increases OTI's level of transparency and accountability.

To this end, the Training Team advances OTI's mission by connecting and developing training and learning opportunities for staff and implementing partners to enable effective programming. The Training Team also furthers OTI's impact by contributing to Bureau and Agency-led training and learning efforts in support of country programs, our staff, and the wider office. Specifically, the Training Team serves as expert trainers, facilitators, designers, and activity managers for core training and learning events, while developing innovative learning resources and assets, such as e-learning courses, micro-tutorials, and how-to guides. In addition, the Training Team liaises with teams and subject matter experts across the office as well as with the Bureau and Agency to develop in-demand training and learning opportunities for staff and programs. The Training Team continues to further OTI's aims, impacts, and lessons learned to equip staff and programs to be more effective. The OTI Training Team supports a model of organizational learning across the office that helps ensure:

1. Increased exchange of ideas between headquarters and field teams;
2. Increased opportunities for peer-to-peer dialogue, learning, and skills development;
3. Easier access to content, and learning resources for a variety of stakeholders;
4. More guidance available in online format;
5. Provision of tools to identify and apply OTI's programming lessons to increase the effectiveness and efficiency of OTI programs.

The Training Team Leader supports OTI's mission by: supporting the design and coordination of innovative solutions that are adapted to OTI's fast-paced global needs; by building the knowledge, skills and abilities of OTI staff to continually improve country program performance; supporting and facilitating learning and training events; and providing support

services ranging from procurement to linkages with private sector partners. The Training and Learning Team supports learning and innovation through the application of technology – including OTI’s knowledge management platforms and the latest facilitation and online collaboration tools supported by OTI’s mapping, data visualization, and other analytic teams – to continually improve OTI staff and country program analysis, management and performance. The Training and Learning team ensures the effective integration of lessons and knowledge into OTI’s learning and training resources through close coordination with other units, teams, and divisions within OTI to achieve these goals.

AAPD 06-10 – PSC MEDICAL EXPENSE PAYMENT RESPONSIBILITY

General Provision 28, MEDICAL EXPENSE PAYMENT RESPONSIBILITY (OCTOBER 2006)

(a) Definitions. Terms used in this General Provision are defined in 16 FAM 116 available at <http://www.state.gov/m/a/dir/regs/fam/16fam/index.htm>. Note: Personal services contractors are not eligible to participate in the Federal Employees Health Programs.

(b) MEDICAL EVACUATION (MEDEVAC) SERVICES – Please see Attachment 2 to this solicitation for information on AAPD No. 18-02.

(c) When the contractor or eligible family member is covered by health insurance, that insurance is the primary payer for medical services provided to that contractor or eligible family member(s) both in the United States and abroad. The primary insurer’s liability is determined by the terms, conditions, limitations, and exclusions of the insurance policy. When the contractor or eligible

family member is not covered by health insurance, the contractor is the primary payer for the total amount of medical costs incurred and the U.S. Government has no payment obligation (see paragraph (f) of this provision).

(d) USAID serves as a secondary payer for medical expenses of the contractor and eligible family members who are covered by health insurance, where the following conditions are met:

(1) The illness, injury, or medical condition giving rise to the expense is incurred, caused, or materially aggravated while the eligible individual is stationed or assigned abroad;

(2) The illness, injury, or medical condition giving rise to the expense required or requires hospitalization and the expense is directly related to the treatment of such illness, injury, or medical condition, including obstetrical care; and

(3) The Office of Medical Services (M/MED) or a Foreign Service medical provider (FSMP) determines that the treatment is appropriate for, and directly related to, the illness, injury, or medical condition.

(e) The Mission Director may, on the advice of M/MED or an FSMP at post, authorize medical travel for the contractor or an eligible family member in accordance with the General Provision 10, Travel and Transportation Expenses (July 1993), section (i) entitled "Emergency and Irregular Travel and Transportation." In the event of a medical emergency, when time does not permit consultation, the Mission Director may issue a Travel Authorization Form or Medical Services Authorization Form DS-3067, provided that the FSMP or Post Medical Advisor (PMA) is notified as soon as possible following such an issuance. The contractor must promptly file a claim with his or her medevac insurance provider and repay to USAID any amount the medevac insurer pays for medical travel, up to the amount USAID paid under this section. The contractor must repay USAID for medical costs paid by the medevac insurer in accordance with sections (f) and (g) below. In order for medical travel to be an allowable cost under General Provision 10, the contractor must provide USAID written evidence that medevac insurance does not cover these medical travel costs.

(f) If the contractor or eligible family member is not covered by primary health insurance, the contractor is the primary payer for the total amount of medical costs incurred. In the event of a medical emergency, the Medical and Health Program may authorize issuance of Form DS-3067, Authorization for Medical Services for Employees and/or Dependents, to secure admission to a hospital located abroad for the uninsured contractor or eligible family member. In that case, the contractor will be required to reimburse USAID in full for funds advanced by USAID pursuant to the issuance of the authorization. The contractor may reimburse USAID directly or USAID may offset the cost from the contractor's invoice payments under this contract, any other contract the individual has with the U.S. Government, or through any other available debt collection mechanism.

(g) When USAID pays medical expenses (e.g., pursuant to Form DS-3067, Authorization for Medical Services for Employees and/or Dependents), repayment must be made to USAID either by insurance payment or directly by the contractor, except for the amount of such expenses USAID is obligated to pay under this provision. The Contracting Officer will determine the repayment amount in accordance with the terms of this provision and the policies and procedures for employees contained in 16 FAM 521. When USAID pays the medical expenses, including medical travel costs

(see section (e) above), of an individual (either the contractor or an eligible family member) who is covered by insurance, that individual promptly must claim his or her benefits under any applicable insurance policy or policies. As soon as the individual receives the insurance payment, the contractor must reimburse USAID for the full amount that USAID paid on the individual's behalf or the repayment amount determined by the Contracting Officer in accordance with this paragraph, whichever is less. If an individual is not covered by insurance, the contractor must reimburse USAID for the entire amount of all medical expenses and any travel costs the contractor receives from his/her medevac provider.

(h) In the event that the contractor or eligible family member fails to recover insurance payments or transfer the amount of such payments to USAID within 90 days, USAID will take appropriate action to collect the payments due, unless such failure is for reasons beyond the control of the USPSC/dependent.

(i) Before departing post or terminating the contract, the contractor must settle all medical expense and medical travel costs. If the contractor is insured, he or she must provide proof to the Contracting Officer that those insurance claims have been submitted to the insurance carrier(s) and sign a repayment agreement to repay to USAID any amounts paid by the insurance carrier(s).
